

**EVALUATION OF THE  
BAY AREA SCHOOL REFORM  
COLLABORATIVE**

**PRINCIPAL SURVEY**

Spring 2005

## ABOUT THE SURVEY

This survey is being conducted by the Center for Research on the Context of Teaching (CRC) at Stanford University and by MDRC as part of an evaluation of the Bay Area School Reform Collaborative (BASRC) during the second phase of its work beginning in 2001. The evaluation is funded by the William and Flora Hewlett Foundation, with the mission of advancing knowledge to support continual improvement of public education.

Principals of all schools participating in BASRC Phase Two are included in this survey. It follows up on surveys conducted annually since 2002. Survey questions concern conditions in your school and district, and your school's experiences with BASRC support for school reform. The questionnaire includes three parts:

- District Context
- School Conditions
- BASRC Participation and Local Collaborative

*Time needed to complete the questionnaire is approximately 40 minutes. Of course, additional written comments of any length are welcome.*

All responses will be kept confidential. The survey is conducted under stringent Stanford University and MDRC regulations designed to protect study participants by ensuring privacy of individuals' responses. ID numbers are used for follow-up and record-keeping purposes by MDRC's and CRC's project associates and to merge the survey data with school record data. All survey results will be reported in summary statistical form only so that **neither individuals nor schools can be identified**.

**Thank you for contributing your time and thoughtful responses to this survey!**
